Spring

2024 - MIXED MEDIA ON CANVAS - 50 x 150 CM - UNIQUE PIECE - AVAILABLE

The work is an explosion of light and colour, a hymn to the vitality of spring. On a light ground, dense drips and chromatic sprays weave together like a carpet of flowers in full bloom: sun yellow, meadow green, petal pink and red, blue and turquoise of clear skies.

The verticality of the composition suggests the awakening of nature, while the gestural energy conveys freshness and spontaneity. It is a synaesthetic painting in which spring is not described but embodied, where colour is scent, movement, rebirth.
